By design tables are filled row by row:

cell 1	cell 2	cell 3	cell 4	cell 5
cell 6	cell 7	cell 8	cell 9	cell 10
cell 11	cell 12	cell 13	cell 14	cell 15

If you want to change this behavior, you need to create a two-dimensional array first:

cell 1	cell 4	cell 7	cell 10	cell 13
cell 2	cell 5	cell 8	cell 11	cell 14
cell 3	cell 6	cell 9	cell 12	cell 15
